

Exteriors

You can personalise the external look you require for your company with glossy black finishes and metallic elements. The new IVECO logo is in matt gun metal finishes. Even the bumper is available in a choice of plastic or hybrid solutions with a choice of colours to match your requirements.

The front face includes headlamps with LED headlamps available as standard, radar for ADAS functions, steps and grab handles to access the windscreen. The side air deflectors are designed to keep the door and mirrors clear even in adverse weather conditions.

The new mirrorless cameras allow for better visibility for the driver and improve aerodynamics aiding fuel economy.
